| Description of our Company             | Since 2003, Quantam Builders & Engineering Ltd. has been manufacturing Pre-fabricated steel buildings for a wide variety of uses. Our buildings are shipped to the site, complete with all materials and accessories and assembled there. No on-site welding is required. This saves money and construction time. Whether the building is for commercial, industrial, institutional or agricultural use. Our ever-growing network of partners consists of experienced, reliable and committed associates |
